

Core Desc.

- Surface pretty level - slight slope ~ 3-4 mm
- Very hummocky surface ~ 5-7 mm relief
 - ~ 2-4 cm across hummock
- appears to be lots of worm tubes covering most of core surface
(most I've seen by far)
- Zooplankton swimming in core

Core Regu.

- Some surface slope - 5-8mm
- very hummocky surface - 3-5mm relief
 - 1-4 cm across
- lots of worm tubes - similar to SE
- Zoo plankton in core
